DEATH

The Peace Symbol | Facts, History & News

This website was created with the purpose of promoting the "Spreading of the Correct Peace Symbol" and to raise awareness about the incorrect "Peace Symbol", the death rune, also known as the Nuclear Disarmament (ND) logo ⨂ designed in 1958 by the British artist Gerald Holtom, which was adopted the same year by the British Campaign for Nuclear Disarmament (CND), and later became an international peace symbol.

As part of a collective effort and independent initiative, we would like to encourage all individuals who feel responsible to urgently contribute to the "Spreading of the Correct Peace Symbol" by circulating flyers and stickers which can be printed from the homepage of this website to reach those who are not yet informed. We thank you in advance for your support.
