

A clarification for the use of the term Spiritual Teaching and the newly implemented term Creation-energy Teaching

The term spirit (German Geist) and its associated derived terms spiritual, spirit-form, etc. used in the spiritual teaching have since June 2019 been further expanded by the more correct word-term Creation-energy and its associated terms Creation-energetic, Creation-energy form, etc.

However, for the preservation of the original writings and books of the spiritual teaching, the terms spirit, spiritual, spirit-form, etc. and their German equivalents are preserved in their original form.

For more information regarding this, please refer to Contact Report 721.
